

## COMMERCIAL PHOTOGRAPHY & FILMING PERMIT APPLICATION

### TERMS & CONDITIONS

We welcome all commercial and non-commercial photographers to the Joggins Fossil Cliffs and Centre.

All images and information displayed within the centre are owned by the JFI or are shown with the permission of the owners.

Therefore if you plan to publish your photographs of any of our display material either in digital format or in printed media, however, you are required to apply for a Photography Permit.

The cost of a permit is \$30.00 per day and covers use of the images captured within the centre.

Anyone publishing images of the material contained within interpretative contexts who has not sought permission nor obtained a Photography Permit may be subject to legal proceedings.

Photography is not allowed when school groups or groups of children are present, unless the photographer has sought permission from the leader/parent/guardian of the children.

The Joggins Fossil Institute Association does not accept any liability for damage, loss or injury to persons or equipment whilst on site.

The use of tripods is not permitted unless special permission is granted.

Your permit will be available for collection from the Admissions Desk upon arrival.
